I think that just because Microsoft is big and successful it has become a target. This company has done more to develop the computer industry than anyone else. Other companies, Sun Microsystems, Oracle, Enron, Lucent, Apple, etc. etc. have been able to compete and be successful too. Leave Microsoft alone and let it put money into research and development, not lawyers pockets. Instead of being jealous and resentful of Microsoft, try buying some stock in it. (I did) I'm a little guy and this lawsuit would be hurting me too. I don't know all the details, but my vote is to please leave this company alone. Enough is enough.
